Dedication

We, as representatives of the Class of '62, wish to extend our sincere appreciation to all who have helped us to prepare for the problems and responsibilities of an adult world. Our special thanks go to Miss Kusek, our friend and Yearbook advisor. Not only did she help us with the production of your yearbook, but, because of her understanding and encouragement, we have learned to accept responsibilities, solve problems, and work together for a common goal.

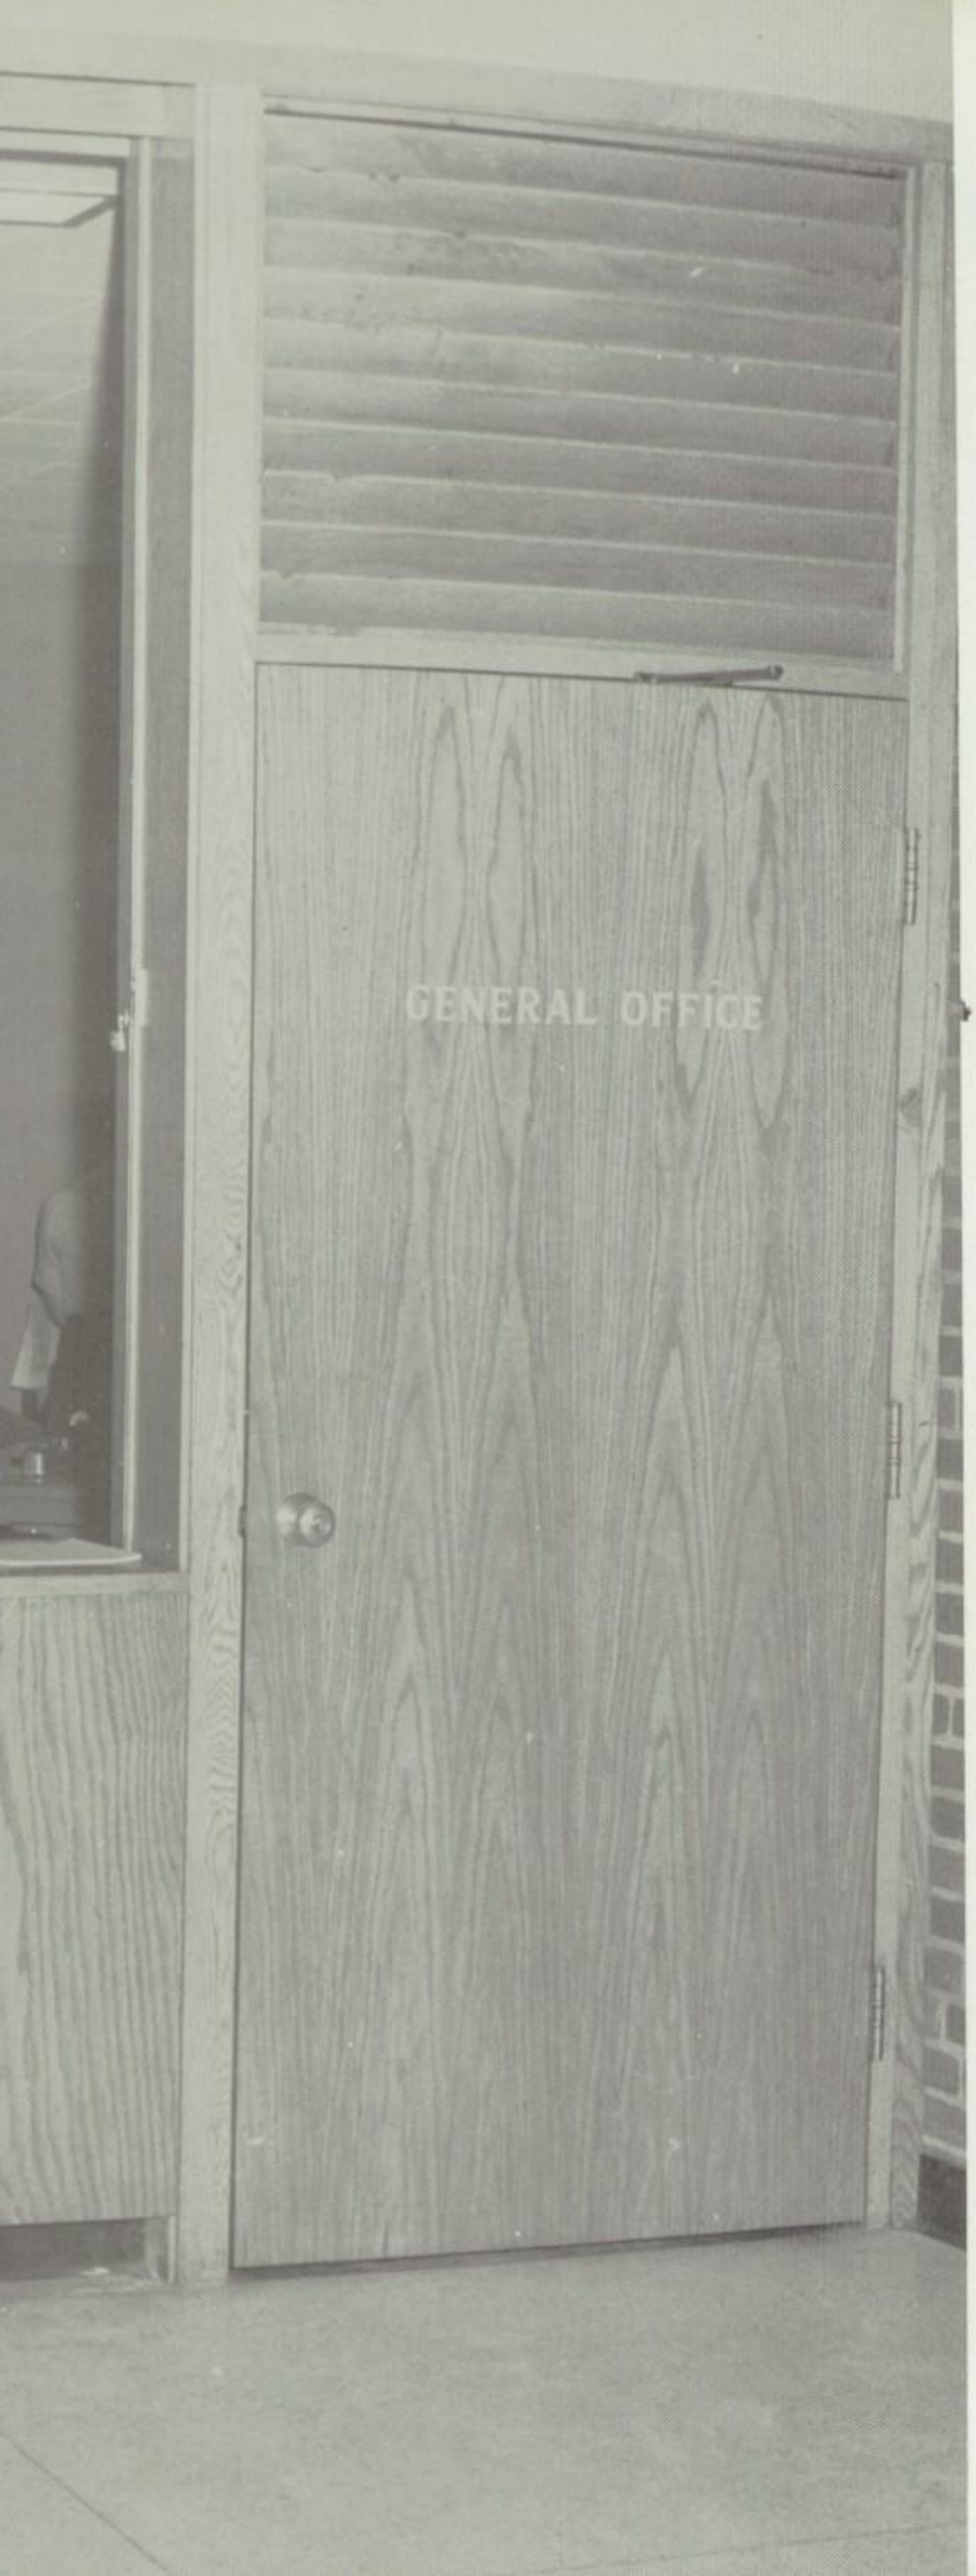
PRINCIPAL



Administration

The administration has its headquarters in the main office off the lobby. Its guidance is felt throughout the school.

We of the senior class extend our greatest gratitude to the administration for its understanding and friendship.

Principal's Message to the Seniors

As your Yearbook takes you on a trip through Schalmont High School, what did you learn in each area? Did you learn that Edgar Allan Poe wrote "The Gold Bug" in 1843, or that Herman Melville died in 1891? Did you learn that Patrick Henry was born in Hanover County, Virginia? Facts are important to learn, but did you accomplish more?

Did you develop an inquiring mind that will lead you to seek answers to the many problems which will confront you? Did you learn to use books, publications and other reference materials to get answers to your questions? Have you acquired the ability to use human resources, such as classroom teachers, outside speakers and fellow students to reinforce personal observations in the learning process? Did you learn to plan so that you could complete term projects and have time left for social activities? Did you learn to work alone? Did you learn the importance of sound mental and physical health? Did you learn to convey ideas by both written and oral means?

If all you have learned is to accumulate facts, then Schalmont has done very little for you. If you can honestly answer yes to the above questions you are well on the way to becoming educated.

As you revisit the scenes of your triumphs as pictured in this Yearbook, I hope your mind will dwell on the importance of what you have learned.

Seniors

Continuing on our journey, one observes that the second floor is predominantly the residence of the senior class. In the morning before the homeroom period, senior students can be seen congregating in a gay manner at the balcony of the second floor.

Our senior class has enjoyed its five years in Schalmont and will regret leaving the place where it has grown toward adulthood.

In one of the more serious moments in the life of the Sycamore family, Grandpa gives thanks for health and happiness.

"You Can't Take It With You"

Directed by
Miss Lela Van Schaick

Tony pleads for Alice's love, but she is undecided because of conflicts between their families.

Penny, occupied with one of her many eccentric pastimes, finishes her painting of Mr. DePinna as a discus thrower.

A peaceful family, absorbed with its great variety of activities, is suddenly interrupted by "J-Men."

While Miss Wellington gives her vibrant disertation of herself as an actress, Rheba and Donald set the table for that evening's dinner.

On November 17, 1961, the Class of 1962 presented, "You Can't Take It With You." The play was a comedy, taking place in New York City during the 1930's. The story told of a very eccentric family comprised of a variety of people, many not related to the immediate family. The odd pastimes and beliefs of the Sycamore family and associates caused several complicated and hilarious situations. Alice Sycamore was in love with Tony Kirby, and after much ado and heartbreak, she became engaged to him. Among Mr. Sycamore's favorable hobbies was making fireworks, an occupation which with Ed Carmichael's pastime of printing, resulted in the arrest of the whole family. Grandpa, throughout the play, created many laughs by his subtle remarks, but he also gave the serious side to the story when he depicted life as it really is in his elaborate sort of way.

The students of Schalmont and their parents and friends certainly enjoyed an evening of pleasure.

While we are on the second floor, we notice that the juniors and sophomores attend most of their classes here. Junior High School students may be found downstairs in the western wing.

The underclassmen of Schalmont have helped the growth of our Alma Mater and have become close friends with members of the senior class. We hope they enjoy their high school lives as much as we have enjoyed ours.

Activities

Extracurricular activities above all have helped to broaden our cultural backgrounds. We have experienced leadership and active participation.

Groups meet each day after school in their respective rooms. Each of these days students enjoy enlightenment in the fields of music, athletics, debate, publications, etc.

OFFICERS: *Left to right:* Mr. Mangulis *(advisor)*, R. Otten—*treasurer;* F. Rhoades—*president;* F. Gibson—*secretary;* missing from picture is D. Holmes—*vice president* and Mrs. Roberts, *advisor.*

Our honor society is a nationally affiliated organization. Mrs. Roberts and Mr. Mangulis advise the group. The purpose of the National Honor Society is to serve others. Members are chosen on the basis of scholarship, service, leadership, and character.

On November 9, 1961, an induction ceremony was held to announce and welcome the new members of the society.

The weekend of October 27, 1961 was the society's trip to Boston. The members saw such famous sights as the Paul Revere House, the U.S.S. Constitution, and the Hayden Planetarium.

Trip to Boston

A panoramic view of Boston seen from the top of the John Hancock Building.

We left Schenectady at 11:45 a.m. The long bus ride increased our excitement and anticipation.

We arrived at the Essex Hotel in Boston about 6:30. Our rooms were beautiful—with radio and television, modern furniture and telephone.

Resting after the long bus ride, Elyse Schoneker and Pat Griffeth look over the menu for dinner and the schedule of planned activities in Boston.

After a busy day of sight-seeing, the National Honor Society group got together for a party.

MRS. ROBERTS

MR. MANGULIS

We extend our sincere thanks to all who helped make this worthwhile and interesting trip to Boston, Massachusetts, possible, and to Mrs. Roberts and Mr. Mangulis for their time, planning, effort, and patience.

This important club advised by Mrs. Fernandez has a two-fold purpose: (1) to raise money to pay for receiving a foreign exchange student for Schalmont and for sending a Schalmont junior abroad and (2) to make the current foreign exchange student available to the community as resource material. Its monetary projects include paper drives, the sale of refreshments at games, dances after basketball games, evening dances, and the sale of A.F.S. shares. For the Schalmont community to benefit from other area school's foreign exchange students, the A.F.S. annually acts as host to the group for a weekend.

Foreign Exchange Student

I came from a country some 9000 miles away to a school very different from that I had been accustomed to. Yet, I did not remain bewildered and strange—rather the kids and teachers went out of their way to make me feel as if I had been there all my life.

Of my memories of this wonderful year in which I have learned and enjoyed myself more than in any other, my days at Schalmont will always remain the dearest. To each and everyone and especially to the Hadleys who have done so much for me and made perfect my stay in Schenectady, all expressions of gratitude seem hopelessly inadequate so that I shall just say a very sincere thank-you!

I hope that before long someone from Schalmont will venture to New Zealand. It would be difficult to find a school as fine as Schalmont but then I could repay, to some extent, your kindness.

Therese Cosgriff

Therese assists club members in washing faculty cars, just one of the clubs many fund-raising activities.

One of the many exciting days which Therese has experienced was the day on which she was named as a member of the Schalmont Chapter of the National Honor Society.

A moment of suspense sustains the spectators while the players build up tension before the next move.

It takes all of one's might to win a game; and it takes all of one's will power to exert that might.

It's a tough job to spur on a tired team; but Schalmont's coach Aucompaugh showed his ability to stimulate a win.

You've got the brains.

Sincerely wish you all the best in the future. Stay as sincere as you are now and everyone will like you. You'll be a great success. Take try and don't ever give up. Good luck in the future and I really hope to see you some time

Good-bye for now.

Take of like forever,

Nancy.

Remember the great times we had at all those basketball games. They were fun. Remember the dates we had? They were fun. I hope you always remember the great time we had at Belmont. Remember the Senior Ball. I had a wonderful time with John and I hope you had just a great deal a time. You and Carl looked wonderful.
Richard please study for the exams. You can do it, really you can. Please try. Please.

The End...

And The Beginning

Graduation . . . and the end of twelve years of grade and high school . . . the beginning of a new era for you.

Many of you will be going on to college, to technical schools . . . while others will be going directly to jobs. Whichever your course may be, remember that your education doesn't stop when you finish school. You can keep on learning . . . by reading, by being constantly curious on your job, about everything you do, and finding answers to your questions. You can't stand still . . . for space-age America holds little for those who refuse to make progress.

The scientists of the future need trained workers to back them up . . . technicians who can build from their plans. In business, in communications . . . in arts and the professions . . . there's a future for those who keep learning . . . those who acquire more skills and more knowledge.

At General Electric, the future will demand trained personnel everywhere . . . to design the machines, to build them, and to operate them . . . to handle the vast amount of work to be done in new ways, with new products. General Electric is not alone in this . . . for every firm finds itself in need of men and women with ability and training, in every degree.

In the years ahead, miss no opportunity to add to your store of knowledge. Keep searching for facts, for theories . . . for the basic information you will need to help you grow in your chosen field. If you do learn, you'll fit into the pattern of the future . . . ready to accept the opportunities it holds for success.

As Seniors, we now look back on our most cherished years of high school.

We began as underclassmen—shy and timid sophomores in 1957.

As Juniors, we shared the excitement of getting our class rings and looking

forward to the one big event of the year—the Junior Prom.

As Seniors we shared many new priviliges, for we were the first class to have "Senior Day" which we will never forget. The Senior Play and the Senior Ball made our final year complete.

When we part our separate ways, we'll always remember our teachers, who have shown us the way, the friends that we have made, and all the knowledge and experience we have gained.

It has been a great pleasure and an experience for the 1962 Le Sabre Staff to capture for you the exciting moments of the past years which would otherwise be quickly forgotten.

With this, we, the Senior Class, close the 1962 Le Sabre.
